The shortfall in production has been due to inadequate and erratic supply of power from DVC, absenteeism and incessant rains in the coalfields. Following steps have been taken to improve power supply to coal mines:—

(i) Power supply position is constantly monitored by CIL and Department of Coal.

(ii) Close liaison is also maintained between CEA, NTPC DVC, BSEB and CIL with a view to supply power to coal companies on priority.

(iii) Additional supply of power to the DVC system from Northern Grid and Orissa is being arranged.

(iv) Continuous operation of small captive power supply units available with the coal companies.

(v) The segregation of coal and non-coal supply feeders are also being undertaken to improve availability of power to the coal mines and installations.
